## V. B. PALMER'S

# American Newspaper Agency,

NEW YORK—No. 1 Spruce St., Tribune Buildings.
PHILADELPHIA—No. 1 Brown's Iron Building, Fifth & Chesnut.
BOSTON—No. 1 Scollay's Building, Court St.

Embraces the best Newspapers, Magazines, and Periodicals in the city and country—affords the opportunity of subscribing for them—and adopting (at the publishers' lowest rates) a safe, thorough, and judicious system of advertising, in the most Widely Circulating Journals in North America.

I. Safe—Because he is the appointed Agent, and authorized to make contracts and give receipts.

II. Thorough—Because the best Journals in America are filed and arranged at his several offices, for convenient examination, affording a choice selection of any desirable number of papers.

III. Judicious—Because his study and practical experience qualify him to give valuable reliable information and important facts in regard to the principle and practical operation of advertising; the trade of the country; the character, circulation, and comparative merits and prices of papers, and their adaptation to the business pursuits of advertisers.

V. B. PALMER'S Views of Advertising, in which he draws a comparison between all commercial pursuits and the grand theatre of mankind, in their physical and intellectual capacity:—

Whereas the physical must be aided by the intellectual in order to compete with the growing wants and demands of the former, so the *material* affairs of business transactions must be aided and sustained by a proportionate exercise of intellectual energy; and this intellectual energy should keep pace with the facilities by which the material affairs of business are advanced. If they do not, the same effect must, from time to time arise, that would result from an overgrown population without the mental discretion to provide means for their sustenance. As a portion of the community would be subject to starvation and death, so in the commercial world, that portion which, with listless concern for the mere transferring and handling of merchandise—the mere *materiel* of trade—would inevitably be obliged to succumb to what is reputed *the times* and fail. Formerly the *materiel* of trade required but little *intellectual* exertion. While our population was comparatively small, our resources limited, our business men few, our conveyances tardy, as also our means of intelligence, it was an easy matter to give notoriety to business abroad, by means of verbal, written or printed communications, which were leisurely passed from one to another and read. The times have changed. Instead of the slow Conestoga teams, we have steamboats and locomotives. These have also superseded the mail coach. The *materiel* of trade has advanced beyond all calculation for speed and dispatch.

Those business men who have consulted, with proper discretion, the facilities at hand, are advancing rapidly in the scale of fortune; while many, very many, who have availed themselves merely of those palpable aids which they were obliged to resort to, or immediately sink, are yet lingering along behind the times. Every one is now obliged, if he would pace with the times, to aid his physical exertions in trade, or whatever business he may be engaged in, by due recourse to those means by which his business profession may become generally known. This is the *intellectual* part of his business, and the press

is the great medium through which it must, at the present day, be developed. Nowadays newspapers are diffused far and wide, they are read by all, and afford the only vehicle by which men and establishments at a distance become generally known. At the present day, as yet, this engine of intelligence, though a most important organ of business, has not attracted attention commensurate with contemporary improvements, simply because the *materiel* of business is more palpable and tangible, and it will be only by degrees that the power of the press will be acknowledged as equal to that of steam for the furtherance of business enterprise.

## V. B. PALMER'S AGENCY.—Opinions of the Press.

If any one wishes to learn the true Philosophy of Advertising, and to ascertain the incalculable advantages resulting from it, we advise him to call on our friend V. B. Palmer, who will open his eyes to its benefits, and give him all necessary information on the subject. Mr. Palmer has long made this branch of education a study, and the whole subject is familiar to him. We venture the opinion that any man who calls upon Mr. Palmer will get some new ideas upon this important subject such as he may think it strange he had not thought of before. The whole matter is simple enough, but yet the people are somewhat ignorant of it because they have not given to it that consideration its importance demands. A revolution in advertising is yet to take place, and when it does, the people will be surprised that it did not come sooner.—*Boston Daily Mail.*

This old established agency continues to enjoy the full confidence of the press and the public. Whatever is intrusted to Mr. Palmer or his agents is properly attended to, and, as the Press is under very great obligations to him, we are happy to know that he is enjoying the unlimited confidence, as he deserves the good wishes of those whom he has so long and so faithfully served.—*Albany Evening Journal.*

The business of advertising is imperfectly understood by merchants generally. Mr. Palmer's great experience and extensive agency enable him to give very important and valuable suggestions in these matters to all who may favor him with an interview. The subject, as presented by him, is worthy the serious attention of all persons engaged in active business.

From an intimate acquaintance with Mr. Palmer, we are prepared to say that any business connected with the Agencies which he advertises, will be both promptly and honorably transacted. In the matter of Newspaper Agencies, he has reduced the business to such an admirable system that all parties can hardly fail to be satisfied.—*N. Y. Daily Tribune.*

Mr. B. V. Palmer, the well-known Newspaper Agent, has for many years been engaged in the agency for receiving advertisements and subscriptions for almost every journal in the Union, having offices in Boston, New York, and Philadelphia; and one more indefatigable, and intelligent, in that kind of enterprise, does not exist. His information on all subjects connected with advertising, cannot be surpassed, and renders him of infinite service to editors, subscribers, and advertisers.—*N. O. Picayune.*

Mr. V. B. Palmer, American Newspaper and Advertising Agent, in the cities of Philadelphia, New York, and Boston, has been appointed agent for receiving and forwarding subscriptions and advertisements for this paper, at his office in those cities respectively. The general newspaper agency established by Mr. Palmer in the above places has been in existence some time, and will, doubtless, be found convenient and advantageous for all newspaper proprietors who shall think fit to avail themselves of it.—*National Intelligencer.*

To such of our country cotemporaries as have not secured the services of an advertising agent in New York, we commend the old and well-established Agency of Mr. V. Palmer, in the Tribune Buildings. His business relations extend to nearly the entire press of the country; and the promptitude with which his accounts are always adjusted, has secured for him the confidence of those who have had transactions with him.—*Buffalo Courier.*

Palmer's enterprise, accompanied as it is with untiring industry, clear-sightedness, indomitable energy, and unwavering perseverance, deserves the reward which we have never doubted he would eventually receive.—*Philadelphia Ledger.*

V. B. Palmer's plan of newspaper agency for advertising and subscriptions, is deserving of patronage, both from the public and from the country press. Mr. Palmer has acted for the *Union* for five years, and we bear willing testimony to his fidelity and promptness. We feel that we should be doing him injustice were we to favor the establishment of another agency, conducted upon his plan, and the forms and arrangements stolen, as it were from him. We shall accept of no advertisements from any other agencies in New York or Boston, and feel bound to protect Mr. Palmer, as much as possible, from having the benefits of his plan taken from him by any one who may have surreptitiously availed himself of the forms and arrangements of Mr. Palmer, in the establishment of a similar agency.—*Saco (Me.) Union.*

# McNAB, CARR & COMPANY,

**133 Mercer Street, New York,**

MANUFACTURERS OF ALL KINDS OF

## Plumbers' Brasswork, Steam & Gascocks,

OIL CUPS, &c.

*Fig. 2*

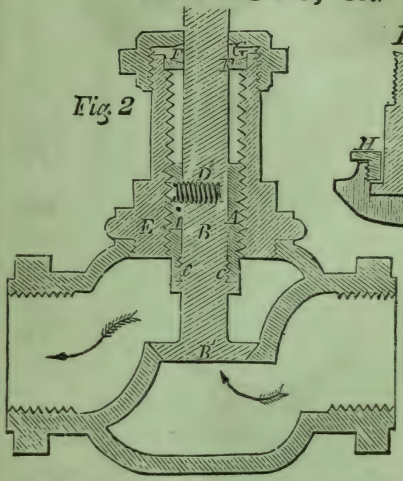

*Fig. 3*

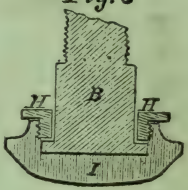
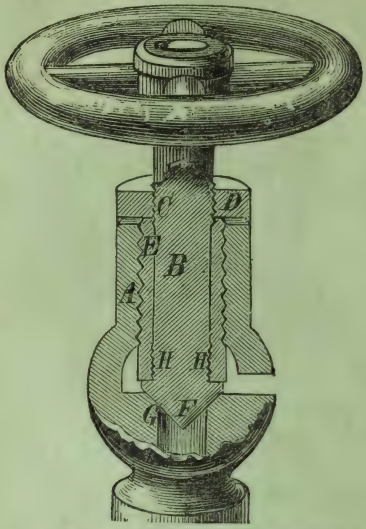


The above engraving is an illustration of an improved **Globe Valve**, patented January 15th, 1856. A A is an outer shell slipped over the valve spindle B, and attached to the latter by means of the screw threads at C C, the small screw D is inserted for additional security. To regrind this valve it is only necessary to unscrew the top piece, E, run the spindle down so as to clear the screw from E, remove screw D, separate the spindle from the shell at C C, run shell A A up into E, and return E to its place; thus changed, the spindle B will be loose within the shell A A, and may be revolved *ad libitum*, and the valve B ground in its seat with emery; when ground, return the parts to their places, and the valve will be as good as new. This improvement can be used with fixed or loose valves with equal facility; in figure 3, B is the spindle, I loose valve, H screw nut on valve; between nut H and the top of the valve I, a washer is placed which renders valve I loose upon the spindle, remove the washer and H can be screwed down tight upon the collar on bottom of spindle B, and thus bind and hold I like the fixed valve, so that it may be ground as described; when ground, replace the washer and it will again be a loose valve.

# McNAB & CARR'S

PATENT IMPROVED



GAUGE COCKS.

E is an outer shell slipped over the spindle B, and fastened by the threads, as shown at H H, and further secured by a flat nut D, being screwed hard against the shell E, as shown at the thread C; by turning the hand wheel the valve F is opened, allowing the steam or water to escape through the opening below.

To regrind this VALVE or COCK, run the spindle and shell out of the body A and slack back the nut D; unscrew the shell at H H, and the spindle is free to revolve in the shell E, return E into A and the valve may be ground with emery, &c., after which replace the parts again and the cock is as good as new.

The shank that screws into the boiler is made of any desired length or diameter, with or without screws.

# WETZLAR & TAUSSIG,

SOLE AGENTS FOR THE UNITED STATES,

## 15 Dey Street.

---

Dr. De Jongh's scientific researches into the nature and properties of Cod Liver Oil, during a period of upwards of fourteen years, have been rewarded by His Majesty, Leopold I., the King of the Belgians, with the large gold medal of merit, and by His Majesty, William II., the King of the Netherlands, with a silver medal, specially struck for the purpose. They have also met with the spontaneous approval of the most eminent medical men and scientific chemists in Europe.

MULLIN JOHN, 16 Ann, is prepared to make guns of the finest quality, which he will warrant superior to anything imported, in shooting. Frank Forrester, in his "Field Sports of America," vol. 2, p. 121, says: "I would rather employ him to build me a gun, not to exceed $150 in price, than to buy any imported gun at a New York shop for $175, or import one myself at the same price; I have tested his work thoroughly, and can speak to its excellence and durability;" see also the same work at vol. 2, p. 144, & vol. 1, p. 316. Also guns of his own make, and warranted as above, from $50 upwards.

THE

# NEW ENGLAND

MUTUAL

# Life Insurance Company,

## BOSTON, MASS.

ORGANIZED 1843.

BRANCH OFFICE IN

## METROPOLITAN BANK BUILDING,

## 110 BROADWAY,

NEW YORK CITY.

CAPITAL and accumulation of PREMIUMS to meet losses, over

**$820,000,**

After dividing, in CASH, among those holding policies profits amounting to $180,000.

A deposit of

**$100,000**

in mortgages on New York City property, is made with the Comptroller of the State of New York, to meet the requirements of the law, to secure policy holders in this State.

THIS IS

# The Oldest American Mutual Insurance Company,

## AND ONE OF THE MOST SUCCESSFUL.

Insurances may be effected for the benefit of married women beyond the reach of their husbands' creditors. Creditors may insure the lives of debtors.

A blank form for application for insurance, or a copy of the Company's pamphlet, containing the charter, rules and regulations, also the annual reports showing the condition of the Company, will be furnished gratis by JOHN HOPPER, Attorney and Agent for New York, or on application to the Secretary of the Company.

WILLARD PHILLIPS, *President.*

DIRECTORS.

JOHN HOPPER,

**AGENT & ATTORNEY for NEW YORK.**

# THE MANHATTAN

# Life Insurance Company

OF

## NEW YORK.

The MANHATTAN COMPANY affords to the assured all the advantages of the mutual system, joined with the security of the Joint Stock Company.

It has a paid up cash capital of $100,000, and an accumulation, to provide for losses, of more than a

**Quarter of a Million of Dollars over and above the Capital.**

Every policy holder may share in the profits of the business, and may receive the same in CASH, or an increase of the amount insured, or by a reduction of the annual premium.

No Company in the United States offers superior advantages. Its affairs are carefully and economically managed, and its profits have been larger than any other Life Insurance Company with a sound CASH CAPITAL.

# The next division of profits will be in 1857.

**EXAMPLE OF RATES FOR INSURANCE OF $100.**

| Age nearest birthday. | For One Year. | For Seven Years. | For w'le Life with profits. | For w'le Life without prof. |
|---|---|---|---|---|
| 25 | $1 00 | $1 08 | $2 04 | $1 84 |
| 30 | 131 | 1 33 | 2 36 | 2 13 |
| 35 | 1 36 | 1 43 | 2 73 | 2 46 |
| 40 | 1 69 | 1 77 | 3 20 | 2 88 |
| 45 | 1 91 | 1 94 | 3 74 | 3 37 |

Persons who need all, or nearly all, their money in their business, may have a

## CREDIT OF ONE HALF

of the Annual Premium of Life Policies, *at seven per cent. interest.*

Insurances at all ages, from 10 to 74, and for amounts from $100 to $10,000.

## LOSSES PROMPTLY ADJUSTED,

and all preliminaries of proof furnished without charge.

Limits of residence very liberal.

Good Faith and Honor will always be the governing principles of the

# Manhattan Life Insurance Co.,

OFFICE,

## NEW YORK, 146 BROADWAY,

(Corner of Liberty Street).

# VERY IMPORTANT TO

# Housekeepers, Farmers,

## AND FRUIT GROWERS.

On the opposite side of this sheet is a representation of a Canister, with a patent attachment, designed for preserving fruits and vegetables of all kinds in a perfectly fresh state, with their natural shape, color and flavor. It is termed the "Self-Sealing Can," and so called, because soldering is dispensed with in closing up the aperture of the can, and because, by the simple turning of a cap, the outward atmosphere is wholly excluded.

With these cans, and directions given with them, such fruits as Apples, Pears, Peaches, Strawberries, Raspberries, Blackberries, &c., and such vegetables as Tomatoes, Green Peas, Green Corn, Beans, and indeed, every species of either, may be preserved for years in their fresh state without the addition of salt, sugar, or acid, or any other preservative property whatever.

Many of these fruits decay and go to waste upon the trees, bushes and market places. Now they may be saved and used, out of their season, for table or pastry purposes. With this Canister they can be preserved economically, as sugar and spirits may be dispensed with.

Health is greatly promoted by the free use of fresh fruits and vegetables, while on the contrary, digestion is greatly impeded, and the digestive organs impaired by the use of preserved fruits so completely saturated with sugar as are the ordinary sweetmeats preserved by families.

These cans may be used year after year. The directions for preserving fruit and vegetables accompany the cans. The mode is so simple that an ordinary house servant, or child ten years of age, need make no error. A little wrench should be purchased for screwing down the cover tightly, thereby making a perfect job.

N. B.—The "Genuine Self-Sealing Cans" have cast in letters on the top of the cap, "Spratt's Patent," "Wells and Provost, Proprietors, New York." This much is mentioned to prevent imposition upon the public by any spurious or worthless article in imitation.

All the cans are guaranteed to answer fully and perfectly the purpose for which they are recommended.

**Prices.**

| | |
|---|---|
| Quart Cans, per dozen, - - - - - - - | $2 50 |
| Half Gallon Cans, per dozen, - - - - - - | 3 50 |
| Wrenches, each, - - - - - - - - - | 10 |
